

Technology at the point of care improves patient safety and reduces errors. But does it have to cost \$3000/cart? The answer is "no." Talk with us about a practical, economical point of care mobile computer cart.

Healthcare Carts knows there is more to mobile computing carts than simply mounting a computer to a battery and wheels. We have a variety of products to help you with the solution best suited for your environment.

Designed to be comfortable and ergonomically correct whether you are pushing, pulling, sitting, or standing.

# Eco-3 Laptop Cart | The Practical Mobile Solution

## PRACTICAL AND ECONOMIC

Can't justify spending \$3000.00 or more for your computer workstation? In most configurations the Eco-3 Cart can be purchased for less than \$1000.00.

## DURABLE

Constructed primarily from aluminum stock, this is one tough workstation that won't let you down on the job.

A limited lifetime warranty is provided on all manufactured components.

## ERGONOMIC

Weighing in at a sleek 40 lbs., pushing this workstation around all day won't qualify as a workout at your local gym.

If you want to rest your feet, the Eco-3 Cart is easily height adjusted from a standing height to a comfortable sitting height.

## CONFIGURABLE

The Eco-3 Cart is available in four different configurations, has two base options, and two power supply options.

In addition our U.S.A. factory can build custom attachments to your specifications.
